ZTE 4G MF823
Dongle.

ZTE 3G MF730
Dongle.

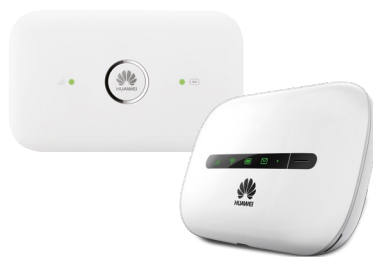

- Your internet connection, wherever you need it.
- Just plug it into your laptop and off you go.

Available with **1GB, 3GB or 12GB** preloaded data.

Huawei E5573
4G Mobile
Wi-Fi device.

Huawei E5530
3G Mobile
Wi-Fi device.

- Get everyone connected.
- This clever little pocket sized box acts as your own secure personal hotspot.
- Take it with you and share your internet connection with up to five (3G) or 10 (4G) Wi-Fi gadgets wherever you are.

Available with **0GB, 1GB or 3GB** preloaded data.

Data.	Validity.	Here's an idea of what customers can do with their preloaded data.
1GB	30 days	Occasional user: Great if you want to send the odd email and light browsing on the go.
3GB	90 days	Moderate user: Ideal for regular emailing, browsing, updating social networks and watching the odd video clip.
12GB	12 months	Frequent user: Perfect if you spend lots of time online and like watching videos or catching up on TV.

Once the data is used up or has expired, just top up and Pay As You Go where you see the top up sign or at Three.co.uk/my3

Inclusive UK allowances are valid from the date of activation. If you use all your preloaded data or it expires you can top up and buy a Super Saver Data Add-on which needs to be activated within 90 days of purchase. Terms apply. See Three.co.uk/terms for details. Internet availability subject to coverage. 4G available only in 4G coverage area using a 4G device. See Three.co.uk/coverage. Feel At Home lets you use your data allowance abroad in 18 destinations to get online at no extra cost, some limits apply, see Three.co.uk/feelathome

Internet with legs.

Get online **wherever** you are with **Mobile Broadband**.

All the best things have legs. Chairs. Centipedes. Ideas. So why wouldn't you want Internet with legs?

Right now it's too easy to lose Wi-Fi connection. You're on the commute. About to smash a triple word score. And Bam. It's gone.

Problem is, you've gone out of range. With Three on your tablet you stay connected wherever you are. And it's always there, when you need it. No questions asked. It's Internet with legs.

Coverage checker.

Check coverage in your area by entering your postcode at Three.co.uk/coverage

4G at no extra cost.

We believe everyone should be able to enjoy the benefits of 4G without paying crazy prices for the latest technology. So that's why we offer access to our 4G network at no extra cost to every single one of our customers with a 4G device in a 4G area.

Use your data **abroad** at no extra cost.

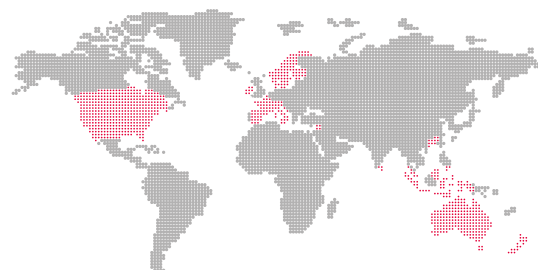

In even more destinations. It's really that easy.

Activate your SIM before you leave the UK and then when you're in a Feel At Home destination you can use your allowances to get online just as you would in the UK.

Whether you're on Pay Monthly, Pay As You Go, or using one of our Data SIMs, you can take advantage and use your data abroad stress free.

So next time you jet off, you can upload photos of yourself by the pool, post updates from the beach, or make a last minute online booking.

To see how it works and how much you can save with **Feel At Home**, head to Three.co.uk/feelathome
