

Cruzer Glide USB Flash Drive 128GB

Product description:

Have you ever experienced storage as reliable and secure as this?

The 128GB* Cruzer Glide™ USB Flash Drive is designed to offer remarkably high levels of reliability and security. It allows you to carry large numbers of spreadsheets, presentations and other work files – or have fun with vast amounts of music, pictures, home videos or movies – ready for you to access whenever you want. Your private files stay protected as well, with the password protection and encryption offered by SanDisk SecureAccess™ software

Getting more from your USB Flash Drive

The capacity you need to store more

Even with Full HD^s video and high resolution images hungry for storage space, 128GB Cruzer Glide USB Flash Drives give you plenty of headroom, just in case. If you need a heavy duty USB Flash Drive that can carry round tens of thousands of photos, tracks or videos – even Full HD video and multi-megapixel shots – then this is the perfect one for you.

Stylish performance

128GB Cruzer Glide USB Flash Drives come in a simple, attractive and smooth red-and-black finish and feature a smart red slider that reveals or hides the USB connector at the push of a thumb, protecting it from accidental damage.

Check out the action

The 128GB Cruzer Glide USB Flash Drive uses a glowing, amber-coloured LED to let you know that the drive is ready for reading or writing data. Once the Flash Drive is inserted into the USB port, the LED pulses when your files are being transferred and slows down when the drive is idle, keeping you up to date on what's happening.

Stay protected with SanDisk

SanDisk SecureAccess software makes it easy to protect personal or business-critical files. Simply drag and drop files into the vault and they'll be protected by a personal password and automatic 128-bit AES encryption†. This means that your content will stay private and secure when you take the drive out and about, or if you store it away for safekeeping.

Compatibility

The Cruzer Glide Flash Drive is optimised for laptops and devices with USB 2.0 ports.

Reassurance with performance

SanDisk develops and engineers its USB Flash Drives to maximise reliability, so you can count on your 128GB Cruzer Glide USB Flash Drive to store your important files.

You can enjoy yourself or work away with total peace of mind. Cruzer Glide USB Flash Drives are backed by a five-year limited warranty.

Trust in SanDisk

All SanDisk products are constructed to the highest standards and rigorously tested at every stage of production, so you can be confident in the outstanding quality, performance and reliability of every SanDisk product.

Store your world in ours.
